### How to Build the Ideal Car Stereo System | Car Bibles

Give your system more power. Once you've replaced the speakers, the next step is to add an amplifier to give them more power. The added power will make the speakers live up to their true potential, bringing out the details and clarity of your music. You'll need a 4-channel amp to power your front and rear speakers.

### Bing: Car Sound System Guide

Add an Amp to your stock speakers. This combination will bring your OEM system to life. It lets you fine tune with an active crossover network and double the power being sent to your stock speakers. This will give you a sound that's clearer and louder.
