### **Jonathan Smith Interpretative Phenomenological Analysis ...**

Interpretative phenomenological analysis is an approach to psychological qualitative research with an idiographic focus, which means that it aims to offer insights into how a given person, in a given context, makes sense of a given phenomenon. Usually these phenomena relate to experiences of some personal significance, such as a major life event, or the development of an important relationship. It has its theoretical origins in phenomenology and hermeneutics, and key ideas
