Flea and Tick treatments not working for you? Let us help you!

This sounds like a no-brainer – your flea medication isn't working if there are still fleas around – but the reality is a little more complicated than that. “By the time you see fleas on your pet, they have generally been laying thousands and thousands of eggs in your house,” Verbrugge said.

Five reasons flea treatment for dogs might not work

Read Online Flea Med Not Working Yahoo Answers

Yes, if after two weeks the flea preventive you applied isn't working, you can reapply flea treatment early, or switch to another brand. I recommend using Advantage or Revolution. This recommendation is unrelated to Petco or PetCoach. If you are seeing fleas on Mia now, you can give her Capstar (Nitenpyram).

5 Reasons Your Flea Medication Isn't Working | Ask Dr ...

The most common reason why a flea treatment appears not to work is because pet owners fail to realize the enormity of the situation. When you see a few fleas either hopping on your pet's fur or in the carpet, you are already dealing with a full-blown flea infestation.

Flea treatments not working, what can I do? | Yahoo Answers

Have patience Flea medicines don't work right away. It takes time for the medicine to fully break the flea life cycle. It usually takes more than one dose of medicine. Follow the instructions on the package for the proper dosing schedule or ask the vet if you are unsure.

if you have been using advantage for a long time there is a possibility that the fleas may have started to build an immunity to it. what i would do is get a flea treatment called capstar, it is an...

Why Has My Pet's Flea Medicine Stopped Working? | 1800PetMeds®

Incorrectly applying topical flea prevention is the most common cause for its failure to work. Flea prevention is expensive, and you don't want to waste a dose. Topical medication should be applied directly to the skin, not the hair. You must part the hair so that you can apply it to the skin at the base of the neck.

How to Tell if Your Pet's Flea Preventive is Not Working ...

The over the counter products do not work and they are not FDA approved and have lots of chemicals in them. You do need to get something from your vet for it to be effective. I believe you either...

One week after the initial diagnosis of COVID-19, President Donald Trump had his first live interview on Tucker Carlson Tonight on Fox News. Speaking with Dr. Marc Siegel from the White House, the ...

Can I reapply flea treatment early? I have applied a tick ...

Only 1-5% of flea population lives on your pet, while the other 95-99% lives in your house and yard. Remove fleas, flea eggs, and larvae from the house and yard by using flea medication treatments that kill adult fleas (adulticides) and contain insect growth regulators (IGR's) to prevent eggs and larvae from developing into adults. For the yard:

Help! Flea Treatment Didn't Work | TheCatSite

If you're routinely providing flea and tick prevention to your pet but they still seem to be suffering from bites, there are several reasons the product may not be working. Although it seems like a given, make sure you are applying the medication correctly.

Can I Reapply Flea Treatment Early? | PetMD

Environmental flea burden: Maybe you've suddenly noticed your dog scratching, and found fleas. But every day you're finding more despite treating. Surely that must mean it's not working? Actually, adult fleas on dogs are the tip of the flea iceberg.

Why Has My Pet's Flea Treatment Stopped Working?

If you are experiencing problems with flea medication not working it may be due to the flea life cycle. These points are usually where the problem lies. Once an adult flea emerges from the pupae and finds a host, it will live on that host it's entire life. Fleas don't jump from one pet to another.
