Butyl rubber is the industry standard for common replacement inner tubes, offering a relatively cheap and readily available replacement product. Butyl is strong and resistant, and there are lightweight versions for those looking for weight savings - the Specialized Turbo range and Continental Supersonic tubes are popular versions.

Bing: Inner Tube Buying Guide

Buy a replacement tube that has the same valve that is currently on your bike. Generally Schrader valves (the fat ones) are used for lower pressure types of riders e.g. kids & mountain biking. Presta valves (the skinny ones) are therefore high pressure e.g. road riding, road bike touring but more and more mountain bikes are now being sold with ...

Inner tube buying guide: common sizes, materials, valves ...

Inner tube valves are the little metal bits sticking out the side of inner tubes which you fit the pump to in order to blow your tube up. There are two main valve types: Schrader and Presta. Lots of bike tubes and virtually all car tires will use Schrader valves. Presta valves are slimmer and longer than Schrader.

won't fit through the valve hole in a wheel rim drilled for a Presta valve. And a Presta valve is too narrow to fit...

Inner tube buying guide | Wiggle Cycle Guides

With an inner tube, the valve is built right into the tube itself. Rubber hardens as it heat-cycles — the process of going from cold to hot and back to cold again, every time you ride — and the tube's rubber, which should be soft and pliable, turns brittle and can be prone to cracking. Compared to tires, tubes are cheap.

Bike Inner Tube Size Chart (Simple Solution)

The 7 Best Lawn Mower Tire Tubes Reviews and Buying Guide. June 3, ... Is the inner tube the same size as the TYRE? When it comes to lawn mowers, it is almost the same in sizes. There would be a slight difference in the inner tube size compared to the wheel's diameter. For instance, a 25 x 1.85 - 2.125 inches would show you that for a 25 ...
